PORTFOLIO – OCTOBER 2020

# About Us

- Formed in 1998
- A Ghanaian pioneer within the landscaping and organic fertiliser sectors.
- Consultative approach to landscape design
- Bespoke landscape that captures your vision, compliments your architecture.
- Well-stocked plant nursery in Greater Accra.
- Adept at designing around diverse topography and climates.
- As well as initial design & execution we offer ongoing maintenance.
- Over 20 years of market experience.

CHURCH OF LATTER DAY SAINTS

INDEPENDENCE AVENUE - ACCRA

## Brief

Budget: \$120,000

Size: 5 Acres

Location Type: Cityscape

Work with CONSAR & architect to create:

Greenspace throughout

Sense of serenity

Maintain outdoor sports space

## Challenges

1. Client specified South African Grass Variety.

2. Continued Play on Sports Pitch

3. Antheriums & Ferns Planted in direct sunlight

1. Provided domestic, equitorial Long Grass for viable uptake.

2. Reverted to GG's desired plan of rolling pitch & replanting turf.

3. Replanted in shaded areas – now prospering.

## Result

❖ Landscaping fit for an Accra Landmark.

❖ Spaces of tranquility suitable for reflection & meditation.

❖ Creation of Micro-nurseries providing cut flowers for internal decoration.

❖ Proof that GG's advocacy of local over import was valid.

**GOLDEN KEY**

**90 INDEPENDENCE AVENUE - ACCRA**

## Brief

Budget: \$45,000

Size: 2.5 Acres

Location Type: Cityscape

Project Commissioned without Garden:  
Create Greenspace throughout

## Challenges

1. Area around towers was concrete.
2. Pool was exposed, surrounded by dirt.
3. Front of building was unappealing – dirt bank.

1. Verander & micro gardens created around ground floor.
2. Pool privatised with trees & shrubbery, stone walkways to combat mud transfer.
3. Bank transformed with grass & flowerbeds.

## Result

- ❖ Residents' wellness enhanced with air quality and aesthetic improvements.
  - ❖ Pool area was transformed from undesirable and inconvenient into the centrepiece of the residency.
- ❖ Frontage of residency was transformed from wasteland to well-recognised feature despite not being in original scope.

VANGUARD HEIGHTS APARTMENTS

ABOKOBI ROAD – CANTONMENTS, ACCRA

## Brief

Budget: \$35,000

Size: 3 Acres

Location Type: Urban Residential

Project Commissioned without Garden:  
Create Greenspace throughout

## Challenges

1. Area between towers was wasteland.
  2. Pool was exposed, easily viewable from entrance.
  3. Continual disruptions from ongoing infrastructural development.
- 
1. Piazza of Serenity created using large trees for shade.
  2. Pool privatised with trees & shrubbery, including distinctive palms.
  3. Ongoing maintenance contract allowed restoration when construction destroyed original finishing.

## Result

- ❖ Residents' wellness enhanced with air quality and aesthetic improvements.
- ❖ Privacy and beauty created around pool area with fishtail and royal palms.
- ❖ Original scope was modified multiple times and so end result demonstrated flexibility to adapt to shrinking budget.
- ❖ Maintenance contract helped to mitigate damage to garden features caused by infrastructural building work.

VANGUARD VILLAS APARTMENTS

ABOKOBI ROAD – CANTONMENTS, ACCRA

## Brief

Budget: \$30,000

Size: 1.5 Acres

Location Type: Urban Residential

Project Commissioned without Garden:  
Create Greenspace throughout

## Challenges

1. Whole Area was concrete and lived in for several years before landscape.
  2. Individual swimming pools were visible from neighbouring buildings
  3. Patch at front of the building was overgrown with unattractive weeds.
1. Micro Gardens created at base of each apartment
  2. Line of Weeping Willows creates curtain of privacy (naturally bunch together).
  3. Front Garden transformed with a wide variety of flowering plants.

## Result

- ❖ Residents' wellness enhanced with air quality and aesthetic improvements.
- ❖ Original scope was modified multiple times and so end result demonstrated flexibility to modify to shrinking budget.
  - ❖ Front garden has become well-recognised point of beauty on well-frequented road.

SIGNATURE BEACH RESORT

**NEW NINGO– GREATER ACCRA**

## Brief

Budget: \$50,000

Size: 3.5 Acres

Location Type: Coastal Resort

Project Working with new owners to revitalise and tranform from family holiday home to commercial resort.

## Challenges

- 1.Entire site was overgrown and wild.
- 2.Ground was not suitable for desired planting.
- 3.Swimming Pool exposed to sea.

- 1.Tree surgeons brought in to bring trees back under control and improve aesthetics.
- 2.Soil conditioners including Cocoapeat and organic compost revitalised soil.
- 3.Trees and shrubs designed to create micro-climate for pool area, protection from sea and evaporation.

## Result

- ❖ Now a premium waterfront destination.
- ❖ Landscaping improved existing features such as pool and created new ones, including seafront chalet and barbecue.
- ❖ Added value provided by micro-nursery to enable on site provision of flowers for events.

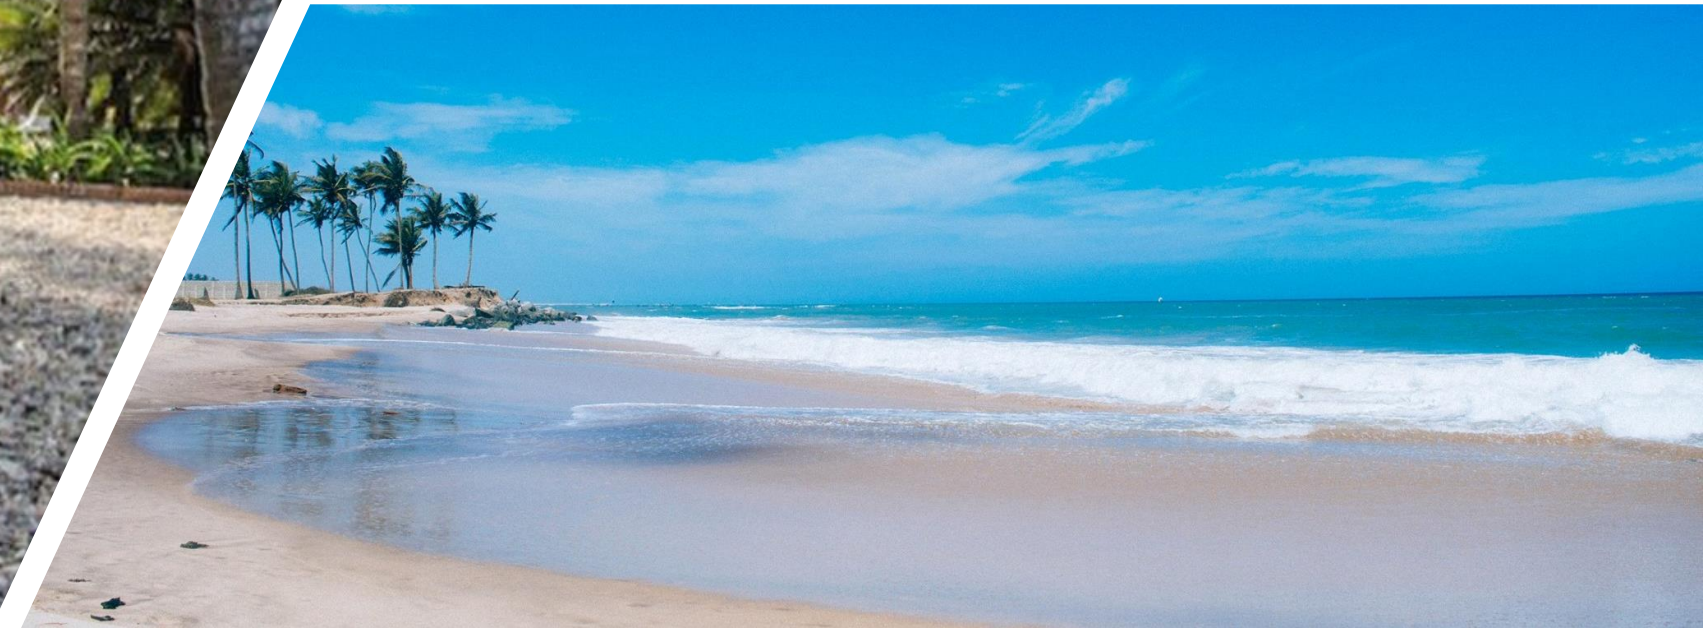

# Why Us

---

- Consultative approach saves time and money.
- Local plant nursery saves on expensive import costs and ensures viability of plants and trees.
- As experts in developing organic soil conditioners and fertilisers we are uniquely positioned to ensure the correct foundations are in place for your project.
- Demonstrable experience in seafront landscaping.
